

The tournament will feature two four-team pools that will play round robin format in order to qualify for final bracket play. Four teams will need to play in order to qualify for pool play. Of the four teams, one team will advance to pool play as the number 8 seed. The four teams will be placed in two separate qualifying brackets. The winners of the first games advance to play each other to see who gets into pool play as the number 8 seed. The losers of the first two qualifying matches will play each other so that they receive a minimum of two matches for the day.

Our league constitution says we will use the tie breaker seeding criteria from the KSHSAA Volleyball handbook and overall records only. I have seeded teams for this tournament based on the "Seeding Criteria" of the KSHSAA handbook. The first criteria is winning percentage. The last applicable tie breaker is a coin flip and that was used to determine the 10 and 11 seeds.
